EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel A Geselowitz on 9/3/2009.

The application has been amended as follows:

Claim 12, line 3, after "drying", insert --and curing--.

Claim 13, line 3, delete "photocurable dry film...thereof" and insert therefor -- photocured article of a photocurable dry film--.

The following is an examiner's statement of reasons for allowance:

Khudyakov et al (6,470,128) disclose and claim an optical waveguide comprising a cured coating obtained from a radiation curable composition representative of the closest prior art. The compositions comprise a urethane acrylate oligomer, a photoinitiator and a vinyl acrylate compound of the formula shown in claim 1. The endcapping hydroxy-functional acrylates disclosed include mainly monoacrylate-functional hydroxy monomers and trimethylolpropane di(meth)acrylate or pentaerythritol tri(meth)acrylate. However, a mono(meth)acrylate hydroxy monomer is used in the Examples and no motivation to select one of the two disclosed hydroxy compounds having two or more (meth)acrylate groups is provided. Further, the urethane oligomers taught do not contain a carboxyl functional group. Another difference from the

Art Unit: 1796

instantly claimed compositions forming the waveguide is that solvents are not used in the compositions taught by Khudyakov et al.

Oshima, of record, discloses a composition comprising a polyurethane binder having the features set forth in the instant claims in combination with organic solvents and radical initiators. However, Oshima does not teach or suggest optical waveguides having a core or cladding layer obtained by drying and curing the disclosed compositions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Susan W. Berman/ whose telephone number is 571 272 1067. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571 272 1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
